BRANFORD LOCK WORKS

1893 CATALOGUE

LOCKS AND HARDWARE.

THE YALE & TOWNE MANUFACTURING CO., Lessee,
STAMFORD, CONN., U. S. A.

NEW YORK: 84-86 Chambers St.

CHICAGO: 152-154 Wabash Ave.

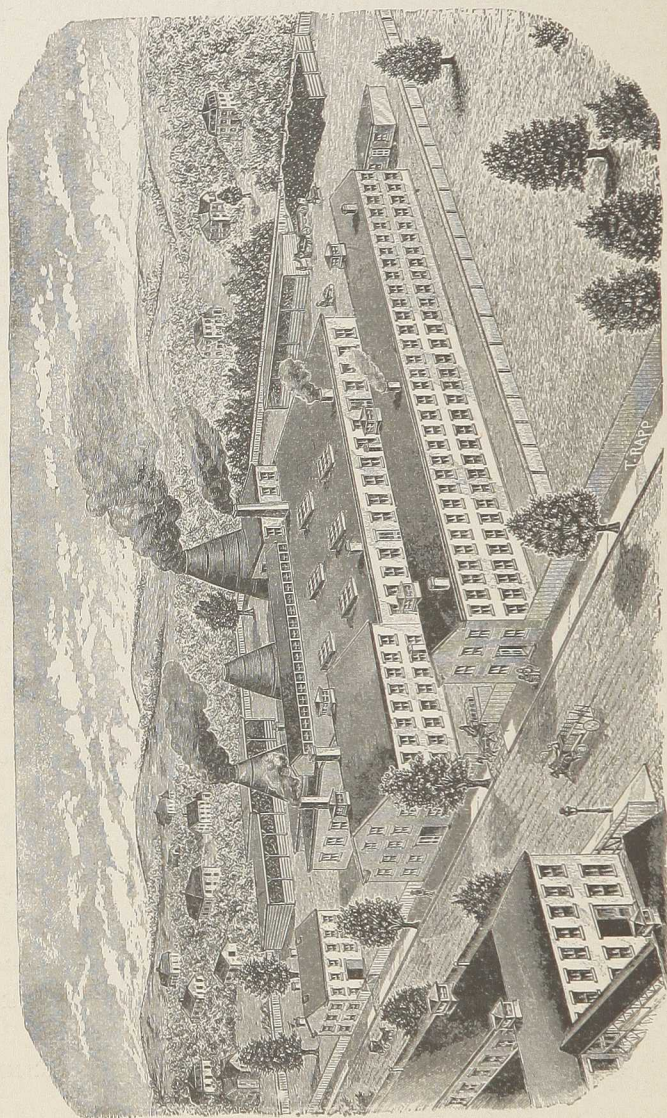

PHILADELPHIA: 1120 Market St.

BOSTON: 224 Franklin St.

PITTSBURGH: Times Building.

SAN FRANCISCO: Mills Building.

1893.

KNOB WORKS, BRANFORD, CONNECTICUT, U. S. A.

ANNOUNCEMENT.

THE sale of the entire product of the BRANFORD LOCK WORKS is controlled by THE YALE & TOWNE MANUFACTURING COMPANY, and is conducted by the latter jointly with the sale of its own products. While the two businesses are distinct in their productive departments, they constitute an united interest in all that pertains to their sale and their relations to the hardware trade. As each of the two lines supplements and is complementary to the other, a uniform size and style of catalogue has been adopted, the novel features of which have already received the endorsement of approval by the trade and the public.

The product of the BRANFORD LOCK WORKS embodies a complete line of locks and builders' hardware pertaining to the equipment of buildings of all kinds, the goods ranging in quality from the cheapest now usually demanded, up to and including a great variety of others of excellent design, construction and finish, and covering all grades except those of the most expensive kinds. Examination will show that many changes in the line have been effected by omitting goods of inferior design, and by improving, where necessary, those which have been retained. Especial attention is called to the line of cylinder locks with flat keys, first presented in this catalogue, the quality of which is unsurpassed by any others in the market. Attention is further invited to the new designs of bronze hardware, in various finishes and in several ornamentations. The line as now presented is comprehensive and complete, but includes no superfluous or undesirable goods. The united lines made by THE YALE & TOWNE MANUFACTURING COMPANY and the BRANFORD LOCK WORKS cover the whole field of builders' hardware. In this catalogue, as in its companion volume, the effort has been not to expand the line, but to contract it by the elimination of useless variations in size and style, and thus to assist the dealer by reducing the variety of goods he needs to carry in stock to the lowest point compatible with the actual requirements of the trade. The united line of goods thus presented is better and more compact, has fewer superfluities, and is more closely adapted to the wants of to-day than any other in the market.

Respectfully,

BRANFORD LOCK WORKS.

ERRATA.

The following changes have been found necessary :

- Page 50. Size of lock should be $4\frac{1}{2} \times 3\frac{1}{2}$ inches.
- “ 63. Key Plate used is **06**, not 05.
- “ 75. No. 3647 lock has **one** tumbler.
- “ 75. No. 3648 lock has **three** tumblers.
- “ 77. No. 14 latch has **brass** front, bolt and strike.
- “ 94. No. 818 lock has **brass** strike.
- “ 367. No. 775 shutter knob should read **No. 755**.

Kindly make these changes in the catalogue **at once** and remove this slip from the book.

"THE BRANFORD" Cylinder Locks.

Permutations practically unlimited.

FRONT AND VESTIBULE DOOR SETS.

Pages 291 to 295.

These locks are operated by a *single key*, which actuates both dead and latch bolts, through one key hole in the front door lock, the same key also operating the latch bolt in the vestibule latch. The dead bolt in the front door lock is thrown on the inside by a thumb knob, which action, however, does not prevent owner's key from throwing back the dead bolt from the outside, thus removing the possibility of owner being "locked out."

STORE DOOR LOCKS WITH HANDLES.

Pages 297 and 298.

MORTISE NIGHT LATCHES.

Page 289.

MORTISE OFFICE LOCKS.

Page 299.

RIM NIGHT LATCHES.

Pages 300 and 301.

DUPLICATE KEYS.

No keys duplicated by number. One of the originals must be returned, if possible; or, if these are all lost, the lock itself (or the escutcheon only) must be returned for new keys. In the latter case a charge will be made for resetting the lock. (See price book.)

MASTER KEY WORK.

All these locks can be set to a master key, so that a person may have locks upon his front door, office or store door, each of which may have a key of its own differing from the others, and yet all can be opened by a single Master Key, one small key taking the place of a bunch of old-fashioned keys.

The number of different locks which can be set up to one Master Key is limited to 12, and for more than this number, two or more sets are needed, each having a different Master Key. When Master Keys are wanted for locks in use, the locks (or their escutcheons) must be returned for the necessary alterations. For charge for Master Key Work, additional to price of lock and keys, see price book.

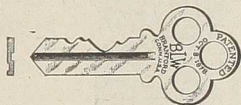

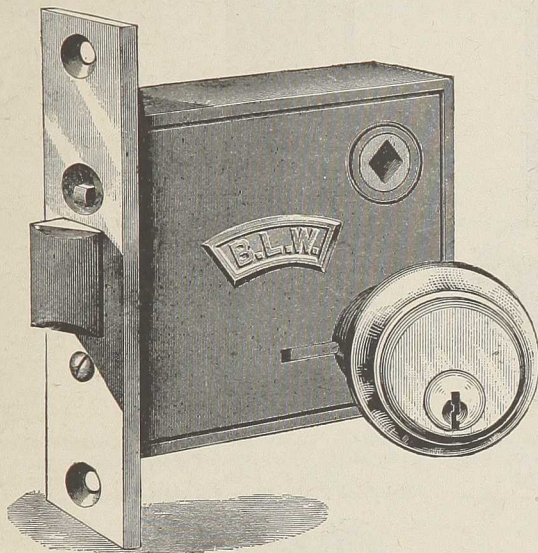

THE YALE & TOWNE MFG. CO. *Lessee of* BRANFORD LOCK WORKS.

"THE BRANFORD" CYLINDER

Mortise Night Latches.

3 Keys. Class No. 273.

$3\frac{1}{4} \times 3\frac{1}{2} \times \frac{3}{4}$ inch.

Reversible, by removing Cap.

Japanned Case.

Adjustable, as packed, for doors from $1\frac{1}{4}$ to 2 inches thick, but can be furnished for other thicknesses, if specified in order.

Operated, from outside by the key only, and on the inside by a $1\frac{1}{4}$ inch knob. The bolt may be fastened back by the spring catch in front.

Packed, 1 in paper box, with screws.
